

RAYMOND RECORDER

VOL. 46—No. 34

March 3, 1949

Mary Gyna, soprano, who is often heard from Winnipeg in recitals and as soloist with Jimmy Gowler and the orchestra on Prairie Schooner. Her specialty is Scottish folk-songs which seem only natural when you consider her maiden name, Campbell. Born in Kingston, Ontario, she moved to Winnipeg as a child and began her radio career there during the war years. In those days she was known as Mary Campbell and appeared on CBC networks with Winnipeg orchestras conducted by Geoffrey Waddington and Roy Locksley.

SOMETHING DIFFERENT IN ENTERTAINMENT

Al Candy and his troupe of talented young people from our neighboring town of Stirling are coming to the Capitol soon in a new Revue. From advance notices it appears that this will be one of the high lights in entertainment for Raymond. Mr. Candy with his willingness and ability to do things, has arranged something different in this musical galaxy. Its repertoire with song, dance and gymnastics which will include the difficult but fascinating adagio number. This revue is called "Sincerely yours" and will be presented at Brewertons Capitol theatre for two nights Wednesday and Thursday March 16 and 17 in conjunction with a full motion picture bill. It will be advisable to keep these dates in mind and arrange to see this program with its high lights.

Brewertons Capitol has also arranged to play the top motion pictures of the major studios during the coming months and to give you an idea of some of these attractions we are listing a few of them: Errol Flynn in "The Adventures of Don Juan", in technicolor, Allan Ladd in "Whispering Smith", This will be Ladd's first picture in color. "Johnny Belinda", one of the years finest, will be presented soon. "The Accused", "Bishop's Wife", "Streets of Laredo", "One Sunday Afternoon", Bing Crosby in "A Connecticut Yankee". Watch for these and other "hits".

Rangers Bring Home Trophy

The Raymond Rangers, Raymond's Intermediate Hockey team took the top place in the Chinook Hockey League on Monday night in the Lethbridge Arena when they defeated the Porcupine Falcons by a score of 6-1. The game was played before a large group of Raymond fans as well as Foremost, Lethbridge and Magrath. There were a good many people at the game that did not realize that Raymond had such championship hockey material, let alone a hockey team, and they really had their eyes opened.

The game was fast and close all the way but the Raymond boys were determined to bring home that shiny trophy and worked with a will.

As the preliminary game the Raymond Junior took a defeat at the hands of Magrath Junior thereby losing the MacPhee Trophy slip away. Our boys played fine hockey considering the fact that they have

PARTY FOR LADS AND DADS

Monday evening a banquet was tendered to some ninety lads and their dads of the 4th Ward, at the Stake House.

The opening prayer was by President John L. Allen and during the banquet a program was carried on.

Kay H. Reid acted as Master of Ceremonies for the program planned by J.D. Bridge. Bishop J. Golden Snow welcomed the guests. Toasts to the boys were given by Frelan Dahl and Marlan Tolstrup with their sons David and Alan replying. A male quartette, Gordon Cooper, Gordon Shaw, Gordon Rolfsen and Loren Mendenhall rendered two numbers. A piano solo by Robert Gibb and mouth organ solo by Jerome Platt were much enjoyed. T. W. McEl-drum gave the story of the life of

FEW VOTERS CAST BALLOTS

The Town of Raymond Elections were held Monday with a very small portion of the electors going to the polls. A total of 287 voters were out on Monday to place Albert (Mutt) Ralph and Lyman Jacobs on the town Council for the next three years. Paul Evans was also on the ballot as a candidate for councilman and the voting was close all the way.

Placed on the Board of Trustees for Raymond Schools were T. W. Meldrum and Ira McBride. Also on the ballot as candidate was S. J. Weaver and again the voting was very close.

Both the Council and the School Board are busy organizing their various committees and getting their budgets ready.

Scholarships Presented

Monday evening at the Opera House between basketball games the annual presentation of the Lion's Scholarships was made.

Presenting the awards on behalf of the Lions was Lion Leon Harker and the following presentations were made: To Misae Hironaka who was the winner of the Tegler Scholarship went a cheque for twenty-five dollars from the Lions, which was received by her father Harry Hironaka. To Phillip Redd, went a cheque for twenty five dollars from the Lions and his mother Mrs. Irene Redd received it on his behalf. Both these young people are away at school.

At the same time Laurie Harker, son of Mr. and Mrs. Leon Harker, was presented with the Governor General Medal. This is the seventh consecutive year that the Governor General's Medal has been won by a Raymond student. The presentation was made by J. Golden Snow, President of the School Trustee of this district.

Many high school students were present along with parents at the presentations.

had to learn on an open air rink in sub zero temperatures. Not only the intermediates and Juniors are hardy and enthusiastic hockey players but when the manager was organizing midget teams here there were 90 of the young fry all working like mad to make a team. Hockey in Raymond is really catching hold and in a few years there will be a good many fine hockey players. We need better facilities for the sport though. A closed in rink would help immensely. Congratulations to the intermediates in bringing home the trophy.

Congratulations to the intermediates in bringing home the trophy.

CARD OF THANKS

We would like to express our deep appreciation of the many kind acts of sympathy and comfort during our recent bereavement, by our friends and neighbors. To those who served lunch or furnished cars or in any way helped we are most grateful.

THE JONES FAMILY

Mr. Haden Powell and Roy Woolley who has worked with the Raymond Scout Troop for ever seventeen years also spoke to the group.

A presentation was made to Clarence E. Alfred for his labors in helping the Boy Scouts each year with the sale of their Xmas Trees. This presentation was from the four Raymond Wards.

Ladies in charge of the delicious meal were Mesdames L. Litchfield, G. Layne, J. Tolstrup, Ann Turner and E. Woolley.

NEWS NOTES

Mr. and Mrs. H. D. Selman have returned to Raymond following their honeymoon in Utah.

Mr. and Mrs. Scott Salmon were Calgary visitors last week when their daughter Blaine returned with them for the week-end.

Many Improvements In Last Four Years

In February of 1941 the Rotary Club of Raymond made a survey of the town of Raymond & presented a brief to the club members and the citizens in general, "How Good Is Our Town". Points stressed were:

Housing—Very poor.

Health—Very Good.

Fire protection—Fair. One small engine, 8 fire plugs, 3 fire boxes, water pressure low, no fire drills at school.

Danger points:

No sewage system

No local hospital

Water disease free, but unpalatable and potentially dangerous.

Milk needs more inspection.

Need annual child clinic.

Education Good

Need sanitary toilets and facilities at school.

Some scholarships needed.

Need a band.

Library needs space for book expansion.

Lighting—Fair. Raymond needs more street lights around public buildings.

In 1945 William Jensen was elected Mayor of Raymond, by the people for the people.

During the years he has been the helm Raymond has pushed forward with an outlined improvement program.

Raymond now has a \$110,000 sewer system as well as a new water supply from a new source and two modern filters which filter all the water.

We have two miles of standard streets, 6 blocks of new side walks. The town now has a large new fire engine with modern fire-fighting equipment, a new automatic fire-siren which will be installed, more fire boxes have been added. Volunteer fire-men as well as school children have fire drill.

There has been 50 new homes built

and many remodelled and made modern. Sanitary plumbing has been installed in both schools and in 256 homes; also the Opera House.

Raymond has a new Municipal Hospital. The Hancock Dairy has a new pasteurization plant. Free inoculation clinics have been held for typhoid, small pox, diphtheria, baby clinics have been held at the Municipal Hospital.

The Lions Club give a \$25.00 scholarship for the best all round student in grade 12. A school band is in the making.

The town employees 5 full time workmen and one policeman.

New buildings have been built for: Head Service, Bank of Montreal, Scott's Farm Supply, Karl Wilde.

New businesses in Raymond are the Raymond Cold Storage, Romeril Service, now Ben's Service, Graham's Motors, Greep Electric, Turners Dry Cleaning, Southern Road and Irrigation Construction Co.; Lawson Plumbing, Larsen's Electric, Burn's Shoe Store.

New fronts have been built on the Broadway Store, The Merc Lumber and Machine Shops, The Post Office has been renovated and lighted, the street lights are better and more of them.

In the Sports and entertainment Field a Stampede has been held every year, also a Track and Field Day.

Kay Francis, one of the top men in show business came to town with his troupe in 1948. Raymond has two trains a day, one from the north and one from the west. The Opera House has taken on a new look both inside and out, a new curling rink is working overtime with 2 sheets of ice.

Raymond has made progress in the last four years and Mayor Jensen has guided and directed those four years of progress.

The figures tell the story.

Skilled at the piano and novachord Lou Snider has also been known to pound the tympani. Radio keeps him busy in the spotlight as well as behind the scenes. In the spotlight he is heard with the Happy Gang, Monday to Friday on the CBC Trans-Vanada network. Behind the scenes he provides the special background music for a number of CBC network programs including Farm Forum, Clock House and Maggie Muggins.

3rd TERM

Pictured above is Mayor William Jensen who has been elected by acclamation to his third term of office as Mayor of Raymond.

Service Held Here For Late Alvin Jones

Funeral services for the late Alvin W. Jones, were held Wednesday, February 23 in the Second Ward Chapel with Bishop Rulon H. Dahl in charge of the service.

Under the direction of J.O.A. Stevenson, the choir rendered the hymns O My Father and The Deepening Trials, with Mrs. Maybelle Anderson at the organ.

Speakers were Elder Hardy of Taber who spoke of his association with Mr. Jones the past two years since he had moved to Taber. He spoke of his activities and willingness to work in any capacity in the Sunday School or in the community and said how he had enjoyed the privilege of working with him.

Bishop Wood of Taber also spoke of the fine sterling qualities which Mr. Jones exhibited in all his undertakings and spoke of his association with him in the church. He said Mr. Jones was one that never shirked his callings and could be depended upon to do the hard tasks. Bishop Miller, also of Taber spoke of his association with Mr. Jones since his arrival in Taber, and he

James Johnston is a busy man in Vancouver drama circles. After his discharge from the R.C.A.F. he went to New York to study at the American Academy of Dramatic Arts. Since his return to the west coast he has taken leading roles in the summer productions at the Theatre Under the Stars in Stanley Park and directed Vancouver Little Theatre productions, as well as making frequent appearances on such CBC programs as Vancouver drama. Mr. Johnston is also heard regularly on Magic Adventures, the Tuesday afternoon children's program, and the British Columbia farm and school broadcasts.

CARD OF THANKS

We wish to take this opportunity to express our appreciation to the Fire department and all those who assisted in putting out the fire in our garage last Wednesday evening.

King Motors
L. D. and Shirley

WEDDING BELLS

LAYTON—COOK

A wedding of interest took place Thursday, February 10th in the Alberta Temple when Ladean Laura, eldest daughter of Mr. Stanley Cook of Raymond was united in marriage to Lowell Lee, eldest son of Mr. and Mrs. Myron Layton of Cardston. Present W. L. Smith performed the ceremony with only immediate relatives present.

Thursday evening a reception was held in the Club rooms at the Raymond Opera House. The bride wore a white model gown of Slipper satin and shirred lace draped the shoulders. The full skirt was broken by a lace trimmed peplum. Her floor (continued on back page)

praised his willingness in all his callings.

President James H. Walker was the concluding speaker and also spoke of the willingness to work exhibited by Mr. Jones. He spoke of his activity in the church and his never ending effort to better his position and the position of the community. He was an ardent community worker and was active in getting several worth while projects for the community such as the Cheese Factory and Municipal Hospital.

All speakers offered words of sympathy and comfort to the sorrowing family and relatives, and spoke of the hereafter and that death was not final, but only a parting for a short time. They spoke of the work that a person does here and what effect it has on the life after and said that Mr. Jones had continually worked to better his position not only in this life but in the hereafter. They stressed the point that salvation cannot be bought with money, it must be earned, and all stated that Mr. Jones had earned his salvation through his good works here.

Musical numbers rendered during the service included a trio by Mrs. Wood and company of Taber, "Dear Lord, Kind Lord"; a vocal solo by Joseph McLean, "Going Home"; and a male quartette "Crossing the Bar" by Frank Taylor and company.

Opening prayer of the service was offered by President L.L. Palmer with the benediction by James S. Anderson. The grave was dedicated by Elder Edwin H. Price.

Full bearers were William Anderson, Arthur Garner, Harold Garner, Harold Fairbanks, Joseph Thompson and Alma Hancock, all close friends. Interment was in the Temple Hill Cemetery, with Christensen Brothers in charge of the funeral arrangements.

The profusion of floral tributes, and the presence of so many friends and relatives from both the Raymond and Taber districts bespoke the esteem held for Mr. Jones and his family.

A BIT OF HISTORY

Alvin W. Jones, aged 50, was born at Red Rock, Montana, while his parents, the late Mr. and Mrs. H. A. Jones were on their way to Canada to settle. They first settled in the Mountain View district, later moving to Raymond.

He served as a missionary for the Church of Jesus Christ in England. For many years he was in the Bakery Business with his father, later taking over the business when Mr. Jones retired. He also spent some time in the Mountain View district farming and also in the States returning to resume his occupation in the Bakery business. At the time of his death he was employed with his wife by the Canadian Sugar Factor-ies in Taber where they operated the Sugar Factory boarding house.

He married Leah Holt, daughter of Mr. and Mrs. F. T. Holt and to them were born five children, Blayne now living in Cardston where he operates a Cinder Brick manufacturing plant, Iris, Dale Natalie and Richard of Taber. Also surviving are five brothers Albert, Austin of Raymond, William of Taber, Stanley of Calgary, Heber of Picture Butte; three sisters: Goldie of Taber, Ina of Washington, and Bernyse of Raymond.

He married Leah Holt, daughter of Mr. and Mrs. F. T. Holt and to them were born five children, Blayne now living in Cardston where he operates a Cinder Brick manufacturing plant, Iris, Dale Natalie and Richard of Taber. Authorized as 2nd Class mail, Post Office Department, Ottawa.

The present weather is most encouraging and has the feel of spring and we immediately forget the long hard cold spell that we have had.

With the advent of spring comes the aftermath of the winter and with the disappearance of the snow there appears to view the refuse and such that the blanket of snow has covered.

The Recorder has, every year at this time, wondered if the town of Raymond would institute a garbage collection system run or operated by them. Now that the sewer is in operation it would be a shame not to have some kind of a collection for garbage in connection with it. There should be an annual Town Clean-up widely and highly publicized. Our sewer system is not going to do the job it should if such messes as exist behind the business houses and restaurants is allowed to continue. There should be incinerators behind all the business houses properly protected as to fire hazard so that refuse could be burned and not left during the winter to rear its ugly head as soon as the snow leaves. Such refuse piles are breeding places for the disease-carrying flies and with these piles in such close proximity to the food stores proper care should be exercised in this regard in protecting the health of our community. We should insist on a Town-operated garbage collection which could operate the year round and be of decided benefit to the community at large.

The recent election with 286 voters out of over 1600 going to the polls doesn't speak very well for the voters of Raymond. But now that it is over the editor hopes that the people of Raymond will make 1950 a year of public spirit. There must be something that can arouse the people from their deep sleep. There must be a way to encourage people to take

more interest in the affairs of the town. It is the peoples business and their money and we cannot figure out why they are not interested. Or is it that the people are satisfied with everything as a whole. Then why does all the sidewalk town managers do so much kicking. There are actually only 286 voters that have a right to kick very loud. They are the ones that voiced their opinions at the polls last Monday. Let's all support our council and school board

THEY NEVER GOT THE WORD

Two Japs who just never got the word that the war was over were Matsudo Linsaki, of Tokyo, and Yanoakage Kufuku, of Sendai. It wasn't until Jan. 6, 1949, that the war ended for these machine-gummers of the Japanese navy. At that time they gave themselves up on two Jima, where they had been living in caves, and foraging at night, ever since the invasion of Feb. 19, 1945. After surrender to air force personnel, they were flown to Guam where they are shown being questioned with Cpl. John Kataoka, of Los Angeles, Calif., acting as interpreter.

NEWS NOTES

A pleasant afternoon was spent Monday afternoon when friends and neighbors gathered at the home of Mrs. Annie Adams in honor of Mrs. Elsie Smith. The party was in the form of a farewell. Mr. and Mrs. S. D. Smith and family are leaving this week to make their home in Lethbridge. A presentation of two lovely bed lamps was made to Mrs. Smith from those assembled. The hostess served a lovely lunch at the close of the afternoon.

NEVER TOO EARLY TO MEND

When referring to machinery, the old saying about its being "never too late to mend" needs to be changed. Its surprising how seedling time sneaks up on one, or haying time, or harvest time for that matter. Spare parts for machinery sometimes are not immediately available from the local agent, and although he will do his best to get them sent down from the branch warehouse in the least possible time there may be a delay of a day or more. A delay during the busy season means a loss

BARBARA ANN 'TOP ATHLETE IN '48

Barbara Ann Scott, Canada's sweetheart of the blades, has again won the Lou E. Marsh memorial trophy, awarded annually to Canada's outstanding athlete. The winsome miss from Ottawa first won the coveted award in 1945, again in 1947, and now in 1948. She is the only three-time winner. She is currently in Washington, D.C., practicing for her next professional appearance. Here she is pictured after the presentation of the Marsh trophy in 1947.

We must study the principles of ideological warfare.

RACE RIOTS SWEEP DURBAN

Prime Minister Daniel F. Malan of South Africa (above) who ordered out troops to quell race riots between Africans and Indians here which have resulted in 105 deaths and injuries to 1,000. Hundreds of Durban's estimated 150,000 Hindoo population were rendered homeless and whole families wiped out outright by chanting descendants of Zulu tribesmen, who surged through the native quarter on their errand of death and destruction chanting tribal songs. Bodies are being photographed for later identification and buried immediately because of South Africa's intense summer heat.

On the Control of Weeds

The remarkable success that has followed the introduction and wide use of 2,4-D and other selective weed-killing chemicals in Western Canada in recent years has, unfortunately, diverted far too much attention from the importance and effectiveness of the old established weed control methods. In weed control there is still no good substitute for timely cultural and cropping practices. Furthermore, the planting of good, healthy, treated seed that is free of weed seeds remains one of the most fundamental and soundest principles of weed control. True, 2,4-D and other new chemicals are good supplementary weed-fighting weapons, but they are not, and never will be, a "cure all" for weeds.

Limitations of Chemicals. There are four good reasons why western farmers should not depend entirely on 2,4-D and other chemicals to rid their farms of weeds. First, there is always an abundant supply of weed seeds in most cultivated soils. These must be destroyed. Second, certain weeds, Russian Thistle for example, can be controlled more effectively and at less cost by proper tillage practices than by applications of 2,4-D. Third, there is still a large number of important prairie weeds which cannot be controlled by chemicals. Two outstanding examples are Couch Grass and Wild Oats. Finally, unless 2,4-D and other potent weed-killing chemicals are used properly and cautiously they may do more harm than good.

New Leaf Chemicals. To meet the growing demand from farmers and grain buyers for the latest information on the control of weeds which today cannot be satisfactorily controlled by 2,4-D, or other chemical substances, Line Elevators Farm Service has recently published two new circulars. One of these, Circular No. 11, is entitled, "Wild Oat Control by Cultural Methods". The other, Circular No. 12, bears the title, "Couch Grass Control by Cultural Methods". Copies of these publications are available, free of charge, to farmers. They may be obtained through local Line Elevator Agents, or from Line Elevators Farm Service, Winnipeg, or Calgary.

MUGGS AND SKEETER

Rangers Take First Game Of Playoffs

Tuesday, February 22 the Magrath Juniors defeated Raymond Juniors by a score of 4-2 in the first game of a 2 game total pointseries for the McPhee Trophy.

The game was staged in the Lethbridge Arena.

As the main event in the Arena the same night a large number of Raymond fans and Foremost fans and Lethbridge fans witnessed the first game of the Chinook League playoffs between Raymond and the Foremost Falcons when the Rangers defeated the Falcons by a 6-5 victory. For many Raymond fans this was the first time that they had witnessed a hockey match and especially a game with a Raymond team participating.

It really showed the possibilities of Raymond taking her place in the hockey picture.

Foremost opened the scoring on a breakaway by Hogan. Brown checked up two more goals in the same period but the Falcons could not hold the Rangers down and they battled to

a draw in the first period.

The first Raymond goal came on a breakaway by Clippert, the second scored by Jensen from Helgeson and he had goal scored by Bartosch on a sizzling drive from twenty feet out.

In the second period Foremost opened the scoring again over the Rangers on a goal from Logan. The first Raymond goal came from Robinson, unassisted. Foremost's fifth goal was from Mathurst, unassisted, but the Rangers came back at the 15 minute mark to chalk up their 5th goal on another brilliant shot by Bartosch. In the third period the Rangers came back to take the lead in 1 minute and 12 seconds on a goal from Clippert. The Rangers held the Falcons score-

less in the third period to win the game 6-5.

It was a fast and hard fought game all the way and both goalies turned aside many shots.

On Monday the McPhee Trophy and the Mitchell Trophy will be given away to the 2 winning teams, the McPhee Trophy to the Juniors and the Mitchell Trophy to the Intermediates.

Monday will again see the Raymond teams tangle with their opponents in the Lethbridge Arena. There will be a chartered bus leave from the Sugar Bowl at 6 o'clock. Anyone wishing to go and not having a ride meet there. Come out and support the teams and push them into the championship.

May Succeed Pearson

—Central Press Canadian
Photographed above is A. D. P. Heene, clerk of the privy council, who is reported to be among those being considered to succeed Hon. Lester B. Pearson, as undersecretary of state for external affairs.

PLEASE YOURSELF whether you buy Maxwell House Coffee in the Super-Vacuum Tin (Drip and Regular Grinds) or the Glassine-lined Bag (All Purpose Grind). It's the same superb coffee blend.

SHOCKING!

The condition of Education in many parts of this Province is shocking.

POOR FACILITIES

CORRESPONDENCE TEACHING

WORK-OUT SCHOOLS

NO TEACHERS

The Provincial Govt. has a responsibility to our boys and girls which is greater than any other duty — Yet they seem to shrug it off...

WRITE TO YOUR M.L.A. at once!

Tell him there must be greatly increased grants for Education and that Education is a Provincial job!

MARVELUBE HELPS YOU KEEP DOWN TILLAGE COSTS

Here's why...

The old lubricating oil in your tractor engine contains dirt which increases engine drag, promotes wear, and may result in clogged oil filters, thus causing injury to cylinders and bearings.

Refilling with the correct grade of Marvelube for your tractor is good business because—

- 1 Free flowing Marvelube effectively lubricates moving parts for all farm operations.
- 2 Marvelube resists heat—does not break down under continuous operation, but protects against wear, under day-in, day-out work.
- 3 Marvelube offers further protection by resisting the formation of carbon and reducing sludge in the crankcase.

Translated into cash benefits for you, the above simply means that frequent servicing with Marvelube lubricants gives your tractor the extra power and smoothness which speeds up all tractor-powered operations on your farm.

Marvelube helps cut down operating costs, aids in avoiding unnecessary replacement of parts, and keeps your tractor on the job longer.

This year the Red Cross Must have More Money

More call for Red Cross

More Outpost Hospitals

More Blood Donor Services

Red Cross Aids Veterans

The Red Cross must be prepared for all eventualities. Year after year the demand for Red Cross services grows. Millions of dollars have been spent in flood, fire and other disasters, in aiding the stricken and homeless.

Throughout Canada, the Red Cross operates 75 Outpost Hospitals and 2 Crippled Children's Hospitals. More are being built and more are needed. Last year over 70,000 patients were served by Outpost Hospitals.

Province by Province the Red Cross is opening its Free Blood Transfusion Service. Untold lives have been saved by this great organization. But more funds are needed to expand and maintain this humanitarian work.

Red Cross provides many services for veterans in Hospitals. Other Red Cross activities include: Junior Red Cross; Swimming and Water Safety; Nutrition Services; First Aid and Home Nursing; Women's Work Activities etc.

Your RED CROSS money is backed up  by thousands of volunteer workers

*THE RED CROSS NEEDS 5 MILLION DOLLARS — 40% MORE THIS YEAR!

FOR PARENTS ONLY

By Nancy Cleaver

HOME GAMES

There should be a convenient place in every home where games are stored ready for use. This collection of games should be added to from time to time.

The old-fashioned games such as checkers, dominoes, tiddlywinks and parcheesi may be enjoyed by a school child or an older person. Crokinole, ping pong and darts are three excellent skill games for teen-agers. Bean bags and ring tossing games can be played by smaller children.

PASS THE TIME

A wide variety of attractive games help to pass the time when boys and girls are confined to the house with a cold or some minor ailment. They are a great help in the holiday season or when unexpected younger guests arrive eager for some fun. During a cold, wet spell of weather, young children are in doors more than when the weather is fine. If they have games to play they are less likely to get into mischief or start to quarrel or complain.

The person who takes the game out of the game cupboard should be

responsible for putting it back. A set of rules for each game should be kept. By referring to written instructions, many heated arguments between players may be avoided. If necessary give a younger child a definite advantage at the start, in order to make a skill game such as tossing rubber horseshoes more interesting. The younger boy or girl could be allowed to stand two or three feet nearer the stake than the other players.

Stick to the rules, once they are agreed on, so that each child learns to play fair. "Good sports" are not born, but made through experience. A child must learn by example and by encouragement to be a good loser and a generous winner.

GAMES SESSION

In some homes where the family unite on a Saturday on a special work project, such as housecleaning the cellar or attic or tidying up a yard, there is an understanding that in the evening there will be a games session. Mother and Dad take time off to join in the good time because son and daughter have shared with

ingly in the household tasks. In other families right after the supper dishes are done, there is a short time when whoever feels like playing a game is free to do so. A third plan is to have "Family Fun Time" Friday or Saturday evening.

The time when family members spend playing together is never wasted. Laughter and friendly competition form a kind of invisible cement in the family circle. The different members of the family get to know each other and appreciate each other better.

SUGGEST GROW FLAX

Agricultural experts contend experienced flax growers should allocate at least some of their intended acreage this spring to flax, in order to diversify production and be in a position to take advantage of any change in the flax supply situation

this year.

Diversified production of crops suitable for the land under cultivation often gives a grower an advantage over other farmers who follow prevailing acreage trends. There are several seasons on record where conditions have been unfavorable for wheat and other cereal crops but satisfactory as far as flax production is concerned. Increased yields of some crops can make up for lowered returns from others.

It should be noted also that with recommended and tested varieties and new methods of culture, most of the hazards connected with growing flax have been removed. The judicious use of weed killers has made a constructive contribution in increasing yields which on the prairies have risen from 6 bushels an acre in 1943

Local Happenings

Miss Helen Ciemis, formerly matron of the local hospital, but now living in Lethbridge is a patient in Galt Hospital.

Mr. and Mrs. Ray Hepew and son Ray Cook and Mrs. Lauretta Dahl, left Thursday for Salt Lake City where Ray will attend the mission school, leaving in a couple of weeks for San Francisco to await a boat for Australia.

Mrs. Dahl will visit her daughter Mrs. Ernest Zobrist in Boise Idaho and later in Utah.

Mr. and Mrs. Ray Powland and Mr. and Mrs. Albert Perry of Del Bonita are visitors at the home of their parents Mr. and Mrs. Stanley Greep.

The Birthday Club honored Mrs. Theima Court Wednesday evening with a party held at the home of Mrs. Eva Ralph. Following a delicious luncheon Mrs. Court was presented with a birthday gift. Mrs. Lucille Larson was a special guest.

Mrs. Ellis Hanger and Mrs. Mary Na des set out from Calgary recently with their son and daughter for medical treatment. Her many friends

The Misses Beth Fells and Lucille Miner entertained the Business Girls Club at dancing on this week.

to over 9 bushels an acre in 1948.

The world flax supply situation is worthy of study before making decisions on flax acreage. It is true that substantial supplies are available for export in two leading flax producing countries, the United States and Canada. On the other hand in Argentina another major flaxseed exporter, the flax crop this season has been sharply reduced by drought and frost.

It should be noted the United States consumes large quantities of this essential commodity and a poor growing season in that country this year would result in heavy demands on any surplus.

It is felt by the Flax Improvement Committee that farmers who have given close study to the growing of flax plan to grow some acreage this spring. This would conform to the approved policy in the United States where it has been found that experienced flax growers steadily increased yields and cash returns by adopting modern methods of cultivation and the use of recommended varieties.

will be pleased to know that she is improving.

Much credit is due to the president of the Ladies Curling Club Mrs. Ralph Reed for the outstanding success of the first Curling Club Dance enjoyed by over three hundred and twenty five people. Mr. and Mrs. Homer Allen, Mr. and Mrs. S. B. Curd and Mr. and Mrs. Ralph Reed received the guests and Mr. M. T. King acted as Master of Ceremonies for the evening. Ten boxes of home-made chocolates were given away in spot dances. Laurence Dahl was the lucky winner of the Curling Rocks with Alma Evans winning the Prestone Anti-Freeze. Door prizes were won by L. Christensen and V. Grbavack. The large box of candy was won by L. H. Vian of Lethbridge. The Opera House was artistically decorated, using curling motifs of brooms, tan o'shaunters and curling ricks by a committee under the capable leadership of Mrs. Glen Meeks.

CARD OF THANKS

The Ladies Curling Club wish to thank all those who helped make the Curling Club Dance such a success.

The Friday night club met last week at the home of Mrs. Anne Alfred when Mrs. Mary Thompson gave an interesting review of the book "Cheaper-by-the-Dozen" Special guests were Mesdames Fern Selby and Lucille Paxman. A valentine much was served.

Miss Lillian Clarkson of Vulcan was a guest here the past week of Mrs. Alice Christensen. Miss Clarkson will be remembered by many here as a member of the local hospital staff. For the past two years she has been nursing at the Western General Hospital in Toronto.

Miss Hazel Taylor has returned from Chicago and is now employed in Lethbridge.

Mrs. Lenore Rolfsen and small daughter Janet of Taber spent a few days here last week visiting her sister Mrs. William Meeks.

Mr. T. George Wood will be returning to his home from the local hospital where he has been a patient for the past week.

Friends surprised Bill Meeks at his home Sunday evening with a birthday party.

IF ALL MEN WERE GOOS

By Joseph Lister Rutledge
Prime Minister Louis St. Laurent announced in the House some days ago the encouraging news that Canada was getting ahead nicely. During the past three years, it appears, we have improved our position by \$1,500,000,000.

"Nice going", we say, a bit staggered by such vast figures. But when we have caught our breath we begin to wonder. It's pleasant to hear that a great burden of debt has been lifted from Canadian shoulders and that now each of us owes \$150 less as our share of the public debt.

But we don't live in that public way. We never thought much about our share of the public debt. What would really impress us, seeing that we're doing so well as a nation, is if government would forget about us as citizen pawas in the game and would think of us as individuals. We would like somebody to start figuring that we might be permitted to keep a little more of our own money to use for our personal needs.

Births

HILL—To Mr. and Mrs. C. M. Hill, a daughter.

WALKER—To Mr. and Mrs. Ralph Walker a son.

VANCOUVER GIRL RECOVERS SPEECH

A miracle occurred for Laverne Tindale, 13, of Vancouver when she got her speech back. She became paralyzed and mute as a result of an accident four months ago. Imagine her surprise when she said "shoes" when shown a pair of ballet slippers.

ISN'T IT FUNNY

That so many
Business men
Will get up in the morning
Refresh themselves with a dose of advertised fruit salt,
Clean their teeth with an advertised toothbrush and tooth paste,
Shave with an advertised razor, Wash and shave with advertised soaps
Put on advertised underwear, Advertisd hose, garters, shirt, collar and shoes,
Seat themselves at the table
And eat advertised breakfast food and bread,
Drink advertised coffee, tea or cocoa,
Put on an advertised hat and gloves,
Light an advertised cigarette, With an advertised match
Go to work in an advertised motor car
Give letters to a typist
Who types on an advertised machine,
Use advertised carbons,
Sign their letters with an advertised pen

THE RECORDER

Fashions

The dress-up date dress offers a handsome contribution to the affluence of social scene this winter. This particular model, pleasantly typical of the newest phase of this most useful item of the well-rounded wardrobe, is of brown crepe nicely garnished with ceru lace. The lace is used for the bodice and shoulder straps, nicely punctuated by a beaded collar of the dress fabric. The fitted bodice is in nice contrast to the gently gathered skirt.

This road leads to pleasure...

No one questions the importance of good roads. We need them to maintain the tempo of modern living.

Yet far more important to the future of Alberta is Education—the road that leads to Life.

Dollars poured into gravel and asphalt make life more pleasant. Dollars spent on young minds are a priceless investment in the future. Education is the most important duty of our Provincial Government, and that Provincial grants should reflect this importance. Express your opinion to your M.L.A. In the minds of children today is what Alberta will be tomorrow.

This advertisement inserted by Alberta Educational Association with 14 supporting provincial and many local organizations.

Canadian Stars Will Try For World Hockey Championships

Canadian ice hockey team, the Sudbury Wolves, who will represent Canada at the world championships at Stockholm in February, have arrived in London. The customs at Southampton seized hockey kit and equipment, including 500 hockey sticks, because an import license was considered necessary. They may be released if necessary guarantees are forthcoming. Above the Sudbury Wolves are seen at Earl's Court (London) ice rink.

Canadian Garden Service

CANADIAN GARDEN SERVICE

by Gordon Lindsay Smith

A pencil will help

A pencil will prove a most useful tool in the gardeners' kit, and it should be the first one put to use each season. True, it is not much use out in the garden itself, but with a few pieces of paper and perhaps a small ruler it will come in mighty handy for planning.

And planning is an important and pleasant part of gardening.

It is not necessary to have an exact blue print, or even a plan drawn to scale, though a rough sketch in the proper proportion, with the prominent features like the house, garage, walks, trees, etc., marked in about the right places, will make things easier and easier.

The main thing about planning, however, is to help get the garden started at the proper time and to prevent duplication and crowding.

Laying out the Garden

For the vegetables, planning is simple mathematics. It is just a case of determining how much space is available and then laying this out

in rows of various widths. For vegetables of medium size like beans, lettuce, carrots and such things it is best to leave at least a foot between rows and up to twice this much will not hurt. More space between make cultivation easier. Larger growing things like potatoes, peas, corn, etc., should have at least two feet between rows, and a yard will not be too much, especially where a garden tractor is to be used for cultivation. Three feet apart is about the right distance for tomatoes too, although they can go closer if they are staked. With sprawling vines like cucumbers, melons and small squashes the best plan is to plant in hills of a foot to 18 inches square and at least two feet between.

Planning Flower Gardens

For the flower garden, lawns and shrubbery about the house, the experts usually advise an informal layout. By that however they don't mean just planting anywhere or, as one wit suggested, mixing a dozen packets of seeds together and sowing broadcast.

It may sound a bit Irish but what

these experienced gardeners have in mind is a carefully planned layout to produce the informal effect, and it is not difficult to accomplish. A few simple rules will help.

First, and of great importance, is the lawn. No matter how small the amount of ground to be landscaped it is advisable to have a piece of lawn in the centre and foreground. Around this the flowers and shrubbery are grouped with the house in the background. There is nothing like a well kept lawn to show off the rest.

One should keep in mind the mature height of the plants, shrubbery and trees to be used. Allow half as much space between as these individuals will finally grow. With an aster that means a few inches apart, with a sunflower or hollyhock 2 or 3 feet, medium tall shrubs such as ordinary spires, pretty close to 4 feet and with a maple tree the space between would be at least 30 feet.

UNION ORGANIZER ARRESTED IN PARIS STRIKE

Union Organizer William Stewart, 29, organizer for the United Textile Workers, local 153, is led away by police who said he was in "chase" after melee broke out at the Penman textile plant strike Paris, Ont. Police said he would be charged with assault. Two workers were also arrested.

They Don't Know Canada

A sister of Mrs. Eva Terry in Arizona writes, "We have had all of three inches of snow this winter, the mercury dropped to nine below one mile. It was terrible. The morgue at Flagstaff is full of bodies, 32 in all, waiting to be buried. What do you folks do in Canada with you dead when it is so cold?" This was written in all sincerity. Guess they just don't know our Canada.

P.E.I. LIEUT.-GOV.

First Aid Classes Organized At Stirling

Through efforts of a few local enthusiastic First Aiders, especially Glen Adamson, such an interest in First Aid Work was aroused in Stirling during the recent St. John Ambulance National Campaign that a class was organized shortly before the last Christmas with twelve interested people being enrolled for the course.

For over six weeks two lectures were held weekly in the evenings in the Stirling School. During that period a standard St. John Ambulance course in First Aid to the injured was given. John Landysheff, Chief

Chemist of the Canadian Sugar Factories of Raymond was the lecturer-instructor of the class, while Dr. J. H. Walker of Raymond was the examiner.

All passed the examination successfully which was held at Stirling on February 2nd.

The Examiners report has now been submitted to the Provincial Office of the St. John Ambulance Association at Edmonton, and in due course a certificate of Proficiency will be issued from the central office of the Order of St. John in Ottawa, to each member of the class.

No doubt it is comforting to the people of Stirling and Maybitt to know that there are a number of well qualified first aiders among them now to rely upon in emergency.

The names of these successful first aiders are as follows:

1. Clinton R. Hardy, 3rd year student, examined for Medallion.
2. Glenn T. Adamson, 2nd year, examined for Voucher.
3. Lyman C. Hardy, 2nd year, examined for Voucher.
4. Mrs. Rose C. Adamson, 1st year, examined for certificate.
5. Dale Charles H. Clark, 1st year, examined for certificate.
6. Mrs. Della Hardy, 1st year, examined for certificate.

7. Lloyd Hirsche, 1st year, examined for certificate.
8. Mrs. Frances M. Marquardson, 1st year, examined for certificate.
9. Boyd Nelson, 1st year, examined for certificate.
10. Alva Wright, 1st year, examined for certificate.

MASTER CRAFTSMEN take pride in blending Maxwell House Coffee. The superb flavor and fragrance of Maxwell House result from a traditional knowledge and skill in the art of coffee blending.

Mrs. Willis Dies In States

News was received here Thursday of the death in Portland, of Mrs. Mary Willis. Mrs. Willis and her daughter Mabel Neilson have been visitors here many times and will be remembered by many Raymond people. She is a daughter of the late Mr.

and Mrs. Charles Selman and a sister of William, Drex and Lee Selman and Mrs. Clara Rolison. Mrs. Rolison and her daughter Edna left Friday for Portland to attend the funeral.

MARSHALL INTRODUCES HIS SUCCESSOR

This photo, made some time ago, seems prophetic in view of the resignation of U.S. Secretary of State George C. Marshall. Sec. Marshall is pointing to Under-Secretary of State Dean Acheson, as if introducing him. In announcing Marshall's resignation, effective Jan. 20, President Truman said that Acheson has been named to succeed him. The under-secretary post will be filled by James E. Webb, now budget director.

'49 Ford

OWNER-APPROVED

EASE OF HANDLING

Owners are hailing the '49 Ford's new big-car roadability... thrilling to swifter pick-up and response... made possible by the "Econo-Power" Power you get from the new 100 hp. Ford V-8 Engine. New Finger-Tip Steering for sure control and effortless parking! Improved "Magic Action" Brakes—35% easier-acting—for extra safety!

Chrome wheel trim rings and white sidewall tires optional at extra cost.

100 Hp.
V-8
ENGINE

OWNER-APPROVED "MID SHIP" RIDE

Everywhere you'll hear owners talking about that new, road-hugging Ford "feel"—so sure and steady, even in a cross wind. Now you ride between the wheels in the low-cradled centre section of the new Ford's 59% stronger "Life-guard" Body.

OWNER-APPROVED "HYDRA-COIL" FRONT SPRINGS

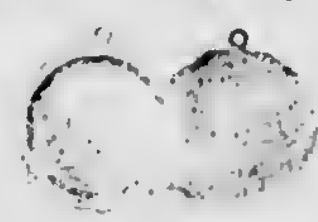

Let the wheels "step over" the bumps! And owners marvel at the soft, level rear-seat ride given by the new Ford "Poro-Flex" Rear Springs.

FASHION AWARD

The Fashion Academy of New York has chosen the '49 Ford to receive the Fashion Academy Gold Medal after 1949 automobile models of all makes and in all price classes had been carefully studied from the standpoint of excellence in design, simplicity, and feminine style appeal. This recognition stands as a tribute to the work of Ford's Styling Department.

There's a **Ford** in your future

Drive a Ford and FEEL the difference

OWNER-APPROVED POWER AND ECONOMY

Already, owners have driven millions of miles in their new '49 Fords. They've proved that the advanced Ford V-8 Engine with Equo-Flo Cooling and new "Deep-Breath" Manifold gives up to 10% more gas economy! And they're enthusiastic about the new, smoother performance and big-car driving "feel" that come from Ford's exclusive "Econo-Power" Power design!

FIRE IS HALTED

Quick action by the Raymond Fire department and volunteer firemen quelled a blaze that threatened King Motors Garage here at about 7 p.m. Wednesday evening. It is believed that an explosion in the furnace was the cause of the fire.

The blaze was quickly brought under control with practically no damage to the interior. At the time of the fire there was practically nothing in the garage as they were just starting to bring in the night storage. The Fire engine was on hand but the fire was controlled by extinguishers which are standard equipment on the engine.

Notice Of Preparation Of Assessment Roll 1949 Town Of Raymond

NOTICE is hereby given that the Assessment of the previous year has been adopted under the provisions of The Assessment Act, and that the assessment roll of the said municipality has been duly prepared, and that if any person thinks that any property has been wrongfully assessed, or assessed too high, or too low, or that his name or the name of any other person has been wrongfully entered upon or omitted from the roll, he may at any time prior to the 30th day of April, notify the Secretary-Treasurer in writing of the particulars and grounds of his complaint.

Dated at RAYMOND, this 1st day of March, A.D. 1949.

W. L. JONES, Secretary-Treasurer

Births
HANCOCK To Mr. and Mrs. Earl Hancock a son.
EHLERT To Mr. and Mrs. Henry Ehler a son.

NEWS NOTES

Mrs. Emma Webster was honored with a birthday party Friday evening at the home of her daughter Mrs. Muriel Terry, when the Birthday Club met. During the evening Mrs. Webster was presented with a lovely bouquet of roses.

The Busy Bee Club met recently at the home of Mrs. June Allred when the evening was spent in quilting.

Mr. and Mrs. Oscar Johnson and family have returned from Minnesota where they spent the winter visiting Mr. Johnson's sisters and brothers many of whom he had not seen for many years.

Mr. and Mrs. H. Myron Holmes and daughters Jean and Joan left Monday in a motor trip to California.

Mr. and Mrs. Rich Bennett moved Tuesday to Picture Butte to make their home. Mr. Bennett is employed at the Sugar Factory there.

EVERYBODY WANTS SONGBIRD TRUMAN

Since it was revealed that Margaret Truman, daughter of the U.S. president, had signed a contract with James A. Davidson as her manager in concert and allied fields for 1949-50, Mr. Davidson has been the recipient of more offers than he has any use for. He is shown in his New York office with some of the telegrams that have been pouring in from all over the U.S. all asking for a spot on Miss Truman's engagement list. During her first concert season a year ago, Miss Truman sang in about 30 cities and was well received everywhere.

—Central Press Canadian

SCOTT'S SCRAP BOOK

By R. J. SCOTT

We must find an ideology more convincing than any of the isms which bid for world control today.

We must begin to live the moral ideology of freedom which is based on absolute standards of honesty and unselfishness, and apply it to every part of personal and national life.

Should Alberta Export Natural Gas?

Radio Talk by Mr. James Walker Gives Facts
Speaks for Northwest Natural Gas Co.

Should we in Alberta export natural gas—or should we not? I believe we should. Provided export permissions are granted the Northwest Natural Gas Co. plans to build a pipe line to convey natural gas from Alberta to Vancouver, via Spokane and Seattle. But first let me assure the people of Alberta that it is only a portion of the surplus gas available that will be exported, and that portion only after providing for present and future requirements of the Province of Alberta. As you know a Commission appointed by the Government of Alberta has conducted a series of hearings to inquire into the natural gas reserves in the province. In its submission to this Commission the Northwest Natural Gas Company made the following statement: "The Northwest Natural Gas Company recognizes and subscribes to the principle that the present and foreseeable future natural gas requirements of the people of Alberta must be assured and have priority over export." That statement is most convincing as to the attitude of the Company. As I said before, it is only a portion of the surplus gas that the Company plans to export.

RESERVES ARE AMPLE

I think we all realize that there are vast reserves of natural gas in Alberta, discovered and yet to be discovered. Geologists tell us that the geological conditions in Alberta are quite like those in the large gas producing areas in the United States, where large reserves are being continually added as a result of the search for oil and gas. At the present time there is no incentive in Alberta to explore for, develop and produce gas fields. Recent discoveries of gas have been made by accident in the search for oil, but unfortunately, these wells are being capped or abandoned, because there is no market for gas. During the recent hearings of the Gas Commission, evidence was given to show that if there was a market for gas, individuals and companies would be encouraged to drill knowing that if they did not find oil but found gas their investment would not be lost. This is exactly what happened in the United States. According to "Gas Facts" published by the American Gas Association, the total gas reserves in the United States in the year 1925 amounted to only 23 trillion cubic feet. The rapid expansion of pipe line transmission systems made a market for natural gas and so encouraged search for new discoveries that in 1935 reserves were increased to 62 trillion cubic feet. By the end of 1947 the reserves had risen to the astounding figure of approximately 166 trillion cubic feet. The discoveries of natural gas have kept far ahead of consumption as a result of the search to supply new markets. In the light of the experience of the United States, would we not be justified in an ignoring that huge new discoveries of gas would be made in Alberta if there was a market for it? It is reported that in the five year period ending 1948 an estimated gas reserve of 2.8 trillion cubic feet of gas was discovered in Alberta. Most of these discoveries were made accidentally in the search for oil. The state of Texas alone has reserves of 90 trillion cubic feet and here is a growing opinion that Alberta may prove to be another Texas. The suggestion of Dr. Link, a consulting geologist well known to Albertans, that the reserves in Alberta might prove to be 30 or even 90 trillion cubic feet should, therefore, not be passed too lightly.

RESERVES WILL INCREASE

The estimates of proven and probable reserves of natural gas in Alberta as reported in 1948 by Dr. Hume, Dominion Government Chief Geologist, indicated 3.6 trillion cubic feet of gas. New discoveries of gas during the period since this survey was made have resulted in an upward revision of his original estimates. Giving further evidence recently before the Alberta Gas Commission in Calgary he increased his estimated reserves of 4.3 trillion cubic feet. This figure, however, did not include the Pincher Creek field where as yet only one well has been brought in. But he did say, that if a second well now being drilled was brought in, the field would have a potential of at least 500 billion cubic feet. It is a coincidence that Mr. W. E. Spooner, a consulting geologist from the United States who also gave evidence before the Commission, estimated the reserves, including the Pincher Creek field, to be 4.9 trillion cubic feet, which is closely in line with Dr. Hume's estimate.

When we talk in terms of approximately 5 trillion cubic feet, let us remember that the present consumption in Alberta is less than 40 billion cubic feet per annum. At this rate of consumption there is a supply for about 120 years, even although no new discoveries are made, which is very improbable. On the other hand it seems to be the opinion of all geologists who have examined the situation in Alberta that present reserves will be increased many times if a market for gas is created. After all is said and done markets are necessary for any industrial progress.

There are people who question the ability of geologists to measure with any degree of accuracy the amount of gas underground. We must

realize that all sciences have made a tremendous advance in technical knowledge in comparatively recent years and that following the extraordinary development in the gas industry in the United States during the past 20 years, geologists have had sufficient experience to arrive at scientific calculations which are reliable and reasonably accurate. The geologists themselves are not in doubt about this point.

INDUSTRIES ENCOURAGED

The opinion is widely expressed that Alberta should keep its gas and force new industries to locate in the province. As a citizen of Alberta, I am in the front rank of those who would like to see the province become an industrial centre, but other factors than cheap fuel enter into the picture. Lack of raw materials, low density of population and high transportation costs to markets are obstacles which cannot be bypassed easily. But up to the present time cheap fuel in the form of gas and coal has not attracted industry here to any marked degree. Fuel is not the factor in cost of production that people generally believe. The overall cost in Alberta, excluding electric energy, is said to be actually less than 1% of the value of the product. To determine the ratio of cost of fuel to value of the product, the U.S. Census of Manufacturers made an analysis of 20 industrial groups in the United States, manufacturing 446 different industrial products. The result showed that only 2 industry groups—iron and steel, and clay and glass products—have fuel ratios in excess of 5%. For all manufacturing industry the ratio of fuel cost to product value was only 1 1/2%. Cheap fuel alone cannot, therefore be said to be a determining factor in locating industry. Furthermore, it will be obvious that gas exported out of the province, say to Vancouver, would cost much more at the end of the pipe line. Industries seeking cheap fuel would, therefore, still come to Alberta. Reverting again to the United States, the history of comparable areas, Oklahoma, Kansas and Texas, where there are vast reserves of natural gas, shows that cheap fuel alone is not sufficient to attract industry. The industries which have been developed in these areas are incidental to the gas industry, such as chemical plants using propane and butane. Industries complementary to the gas industry would be encouraged to locate in Alberta for the following reasons: It will be necessary to have the natural gas as it comes from the well stripped of natural gasoline. In addition the propane and butane will be extracted. Both propane and butane, if recovered in large amounts, should found the basis of new industries in the province. The propane can be used as bottled gas in the rural districts of the province. Also, propane and especially butane, would be available for use in chemical plants as raw materials for the manufacture of artificial rubber, nylon and many other products. The company has already been approached about the possibility of extracting sulphur from the gas. The sulphur would be used to manufacture sulphuric acid or some other chemical product. The project of the Northwest Natural Gas Company will therefore stimulate and further industrial expansion.

MILLIONS OF DOLLARS

The project when completed will be one of Alberta's largest industries. It will exceed any other company in capital investment and will rank among the first 12 in payrolls and the first six in cost of materials. It is estimated that 1 million dollars will be paid yearly in Alberta in wages and that a further sum of \$250,000 yearly will be paid in wages by companies who supply the gas. This is big industry. In addition to payrolls, the government would benefit substantially from royalty payments and taxes. Payment for rights-of-way are estimated at \$500,000.00.

The limitations of time will not permit me on this broadcast to give full details of the company's project, particularly as to the beneficial effects it will have on the economy of the province of Alberta. These are of extreme importance and I shall discuss them fully in my next radio talk on this same station same time, one week from tonight. In the meantime I would like to summarize briefly the highlights of tonight's discussion:

1. The Northwest Natural Gas Company only seeks to export a portion of the surplus of natural gas.
2. There are now sufficient reserves of gas to supply the present and foreseeable requirements of the province and an ample surplus available for export.
3. With an export market for gas the proven reserves will grow faster than consumption through increased exploration and development.
4. A new major industry will be brought to the province which will attract other industries.
5. Large sums of money will be brought into the province and spent on wages, etc.
6. The revenues of the province will be increased by royalties and by taxation.

The subject of gas export is of major importance to the people of Alberta and I hope that my listeners tonight, and others, will be sufficiently interested to tune in again next week when I will continue the discussion.

(Mr. Walker's second address will be printed in this space next week.)

A Message to ALL MOTOR VEHICLE OWNERS

You do not need to have the benefits of improved roads in Alberta pointed out to you. But, unless someone continues to harp on this theme, the action that is needed may be neglected, or postponed or given only cursory attention, without protest.

The A.M.A. has made it its business to impress the advantages to be derived — far in excess of the costs — from improved roads and highways. Your interest alone in that crusade should make you an A.M.A. member, apart from the fact that you get free automobile accident insurance and a host of services and benefits well worth the \$10 a year membership fee.

JOIN THE ALBERTA MOTOR ASSOCIATION for better roads and better motoring conditions in Alberta.

Prompt, Courteous Service

of time and money.

At the Experimental station the men in the shop having finished overhauling the tractors, are now busy checking over all the other farm machinery. They began with those implements which will be in use first in the spring.

taken off and checked as chances are that bearings need cleaning and repacking with grease.

It is not enough to rely entirely upon memory when it comes to deciding what repairs have to be made. Each machine must be thoroughly examined from top to bottom, from one end to the other. The wheels are taken off and checked as chances

are that the bearings need cleaning and repacking with grease. What about the power lift? Was it working properly when used last? Disc harrow openers will not do their job properly if they are seized up nor if they are too loose. Press wheels on drills sometimes shear their pins and slide along the shaft.

Springs do not last forever. There are some on almost every machine, even on such innocent implements as lever harrows. Each spring has a job to do. If one is broken, or has been lost, replacement is necessary. Springs are to be found everywhere and in all sizes, from the big counterpoise springs on one-way discs and

mowers to the little ones in grease nipples. The grease nipples are very important too. They provide the means by which a machine can be lubricated. Grease is cheaper than bearings.

But it is not enough to examine only the working parts of the machine. Without a framework to hold them in place the working parts would be useless. Frames are subject to considerable vibration and strain and may have cracks in the metal. Nuts sometimes work loose and bolts

are loose. The loss of a bolt may lead to the breakage of one of the vital parts of a machine.

Plow shares and cultivator shovels should not be overlooked. After last year's dry fall they will all need sharpening. The blacksmith is not so busy now as he will be in a month hence.

A thorough check over and necessary repairs to machinery now will eliminate many costly delays during the season.

It is never too early to mend.

Canada has over 42,000 miles of One Case type, the Douglas Fir, railroad track. Only Russia and the United States have more. The lumber is more than half of all the lumber sawn at British Columbia mills.

**A Message to
CITY AND TOWN
EXECUTIVES**

Larger cities and towns are discovering that parking is developing into a serious problem. In many places, parking on main streets and highways obstructs traffic, discourages shopping, and increases the hazard to both motorists and pedestrians.

Our study of this problem indicates that the solution lies in providing OFF-STREET PARKING accommodation — convenient for citizens and attractive to visitors.

We respectfully suggest that municipal councils and other public bodies give consideration to solving this problem in the interests of their communities. The A.M.A. will be glad to furnish all information it has available on this subject.
